Watching Spanish-language movies on Netflix is a great way to practice vocabulary and listening skills. Spanish films also allow you to learn about other cultures and gain exposure to different accents and slang.

If you are an intermediate or advanced learner, I recommend watching with Spanish subtitles as studies show it enhances language learning. I also jot down any interesting new vocabulary and add it to my Anki flashcards later.

Here are some of the top Spanish movieson Netflix streaming in the US as of January 22, 2021. If you’re not in the US, just click the title to check if the show is available in your country. Watch these films while you can, because content disappears as licensing agreements expire. See the current list on the link below. If you are not in USA share in the message box below which of these films were available in your country.
