

Agamemnon By Aeschylus & Chrysanthi Avloniti

Synopsis

Agamemnon is the opening play of *Oresteia*, by Aeschylus, followed by *The Libation Bearers* (*Choephoroi*) and *The Eumenides*. Although the three tragedies are independent in their plot, the overall storyline is continuous and they all share a common theme.

In *Agamemnon* the action begins just after the fall of Troy and Agamemnon's capture of Cassandra, whom he brings to Argos as his mistress. Before the day of his return is over, his wife, Clytemnestra, murders them both and she then establishes herself and Aegisthus, her lover, as rulers of Argos.

Is it fate or free will primarily responsible for the suffering in the hero's life? What distinguishes the hero from the crowd? Though fated, the hero makes his own choices that bring about his destruction. On the contrary, an individual, as member of a crowd often loses his sense of responsibility and remains passive. Most of us fall in that category. A hero acts against the shape of things that degrade him, and in the process of action, everything we -the crowd- have taken for granted, because of fear or impassivity or ignorance, is shaken before us and scrutinised.
