Renowned Sculptor, Jyotsna Bhatt, passes away

Known to be one of India’s best-known ceramic artists, Baroda-based Bhatt breathed her last on July 11, two days after she suffered a stroke. She was 80. “She was a gentle and generous person, who made wonderful work. A nodal figure for artists working in ceramics, her works received wide recognition and she would often travel to conduct workshops across the country,” says artist Nilima Sheikh.
